

Wills

What is a Will?

A Will is a written document that divides up what you own (called your Estate). In your Will you appoint a trusted person to be your Executor, who distributes your estate according to the instructions in your Will.

What Happens if I Die Without a Will?

- ◆ Your Estate will be distributed accordingly to the law and not according to your wishes
- ◆ There is an arbitrary splitting of your Estate between your spouse and children, no matter how old the children are.
- ◆ The Government will be appointed to take care of your children.
- ◆ Someone would have to apply to administer your Estate which costs more and involves the Government
